

```
#include<stdio.h>
void main()
{
    char *stptr, *cpp;
    char copy[20];

    stptr = "Shin Jung Hwan";
    cpp = copy;

    printf("Pre Copy : %s\n", stptr);
    while( *stptr != '\0')
        *cpp++ = *stptr++;

    printf("Post Copy : %s\n\n", copy);

    /*cpp = copy;
    while(*cpp != '\0') {

        printf("%c", *cpp);
        cpp++;
    }
*/
}
```
